

Indiana 211 Partnership, Inc.
IN211 Standard Resource Data Elements

IN211 requires the use of all required data elements in AIRS Standards

Standard data elements for Resource records

- unique record ID
- legal name of organizations and AKAs
- program name
- street and mailing addresses
- phone
- fax
- TTY
- e-mail
- web
- hours
- services provided (usually in short narrative form)
- target populations served
- eligibility requirements and documents
- geographic area served
- application process
- languages other than English
- legal status
- fee structure
- payment method
- name & title of director
- date info was verified

Additionally, IN211 seeks to include ADA-compliance or access for persons with disabilities as a longer-term goal for standard data element.

Approved by IN211 board: 7/09/02 and included in IN211 Operations Manual
